## About Us

Founded in 1996, FHD Group is a dynamic, multi-disciplinary design studio specialising in architecture, landscape, and interior design. With a strong team of 100+ professionals and an expansive network of expert collaborators, we blend in-house creativity with cross-disciplinary innovation to deliver transformative design experiences.

Our diverse portfolio spans across eco-habitats, residential, commercial, hospitality, and high-rise developments—each project reflecting a thoughtful balance of function, form, and future-forward thinking.

At FHD, we thrive on untangling the complexities of design. We dive deep, simplify intelligently, and create spaces that provoke—evoking emotion, curiosity, and a lasting sense of connection with their users.

Driven by an honest, human-centric ethos, we've consistently delivered meaningful, sustainable solutions that enrich lives—making a real difference for both clients and communities
